ABOUT **TALAYTECH**

TalayTech was established in 2006 in Azerbaijan, with a clear vision to deliver reliable engineering and industrial solutions for strategic sectors and major projects.

The company gradually expanded into a multi-branch engineering and industrial organization operating across several regional and international markets. Today, TalayTech provides integrated solutions for the oil and gas, energy, infrastructure, and industrial manufacturing sectors.

TALAYTECH

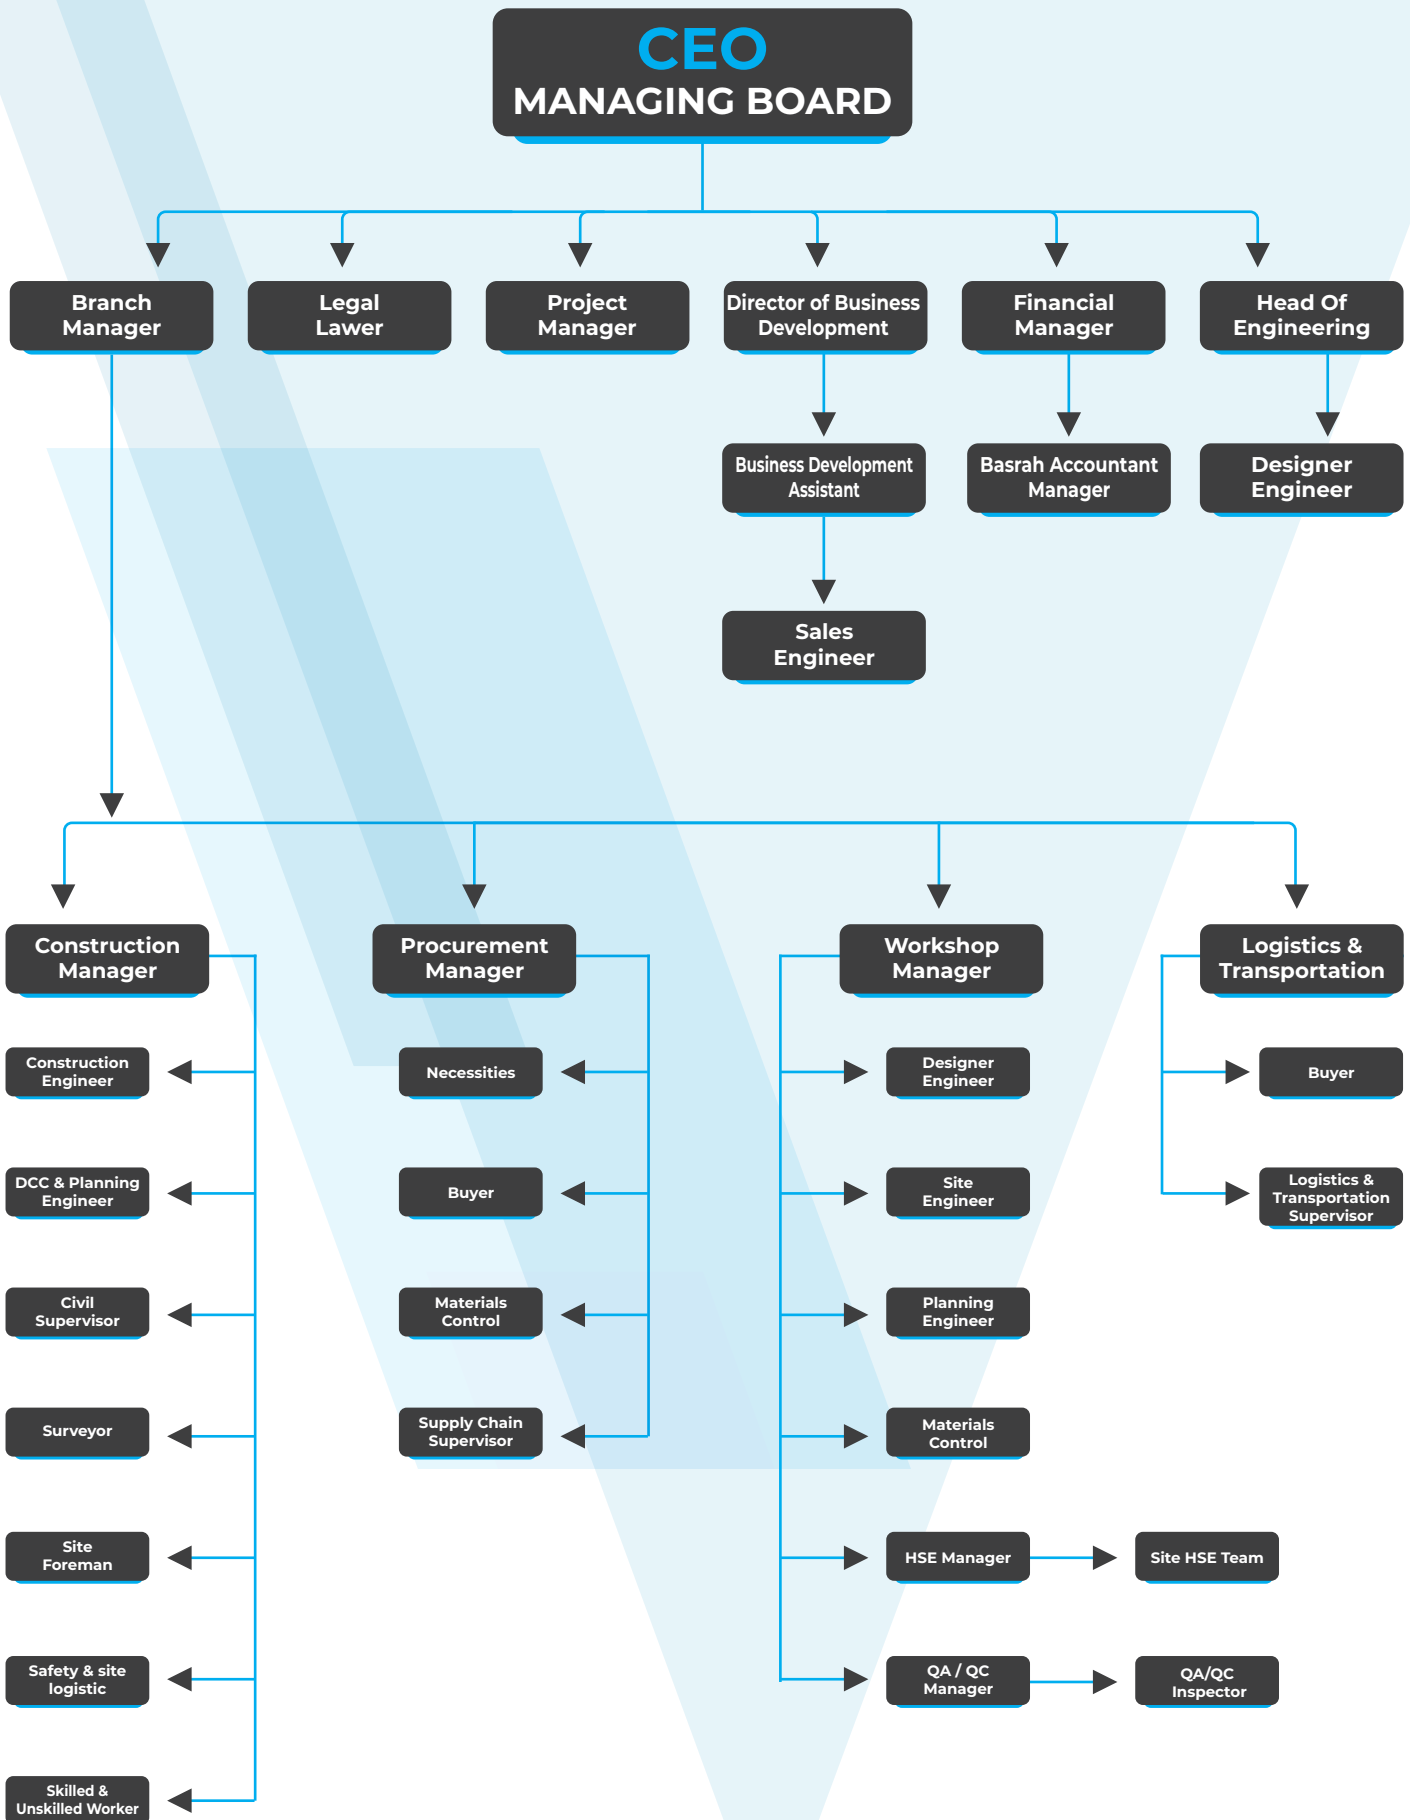

CURRENTLY OPERATES THROUGH
A GROWING BUSINESS NETWORK
THAT INCLUDES:

COMPANY TIMELINE

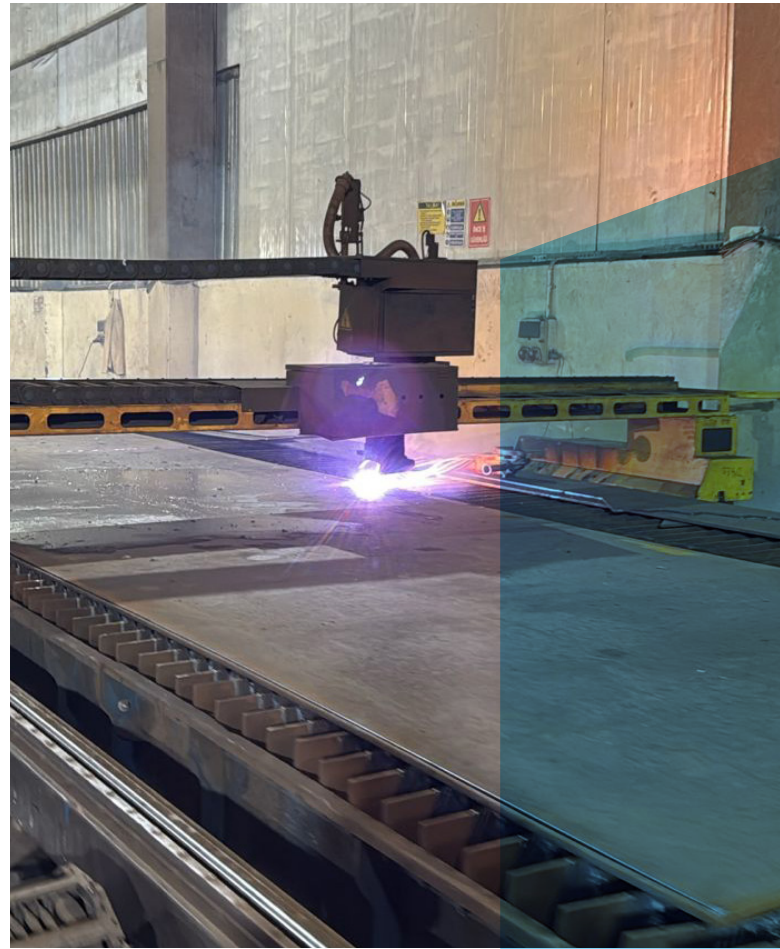

ORGANIZATIONAL CHART

► OUR VISION

To become the Middle East's most trusted engineering and industrial solutions partner, recognized globally for transforming complex engineering challenges into innovative, sustainable, and high-performance solutions that shape the future of energy and industry. We envision a future where TalayTech stands at the forefront of industrial innovation, setting new benchmarks in engineering excellence, advanced manufacturing, and operational reliability. Through continuous investment in technology, people, and sustainable practices, we aspire to contribute to safer industries, stronger economies, and a more sustainable world. Our vision extends beyond delivering projects—we aim to engineer progress, inspire innovation, and become a lasting force in the global industrial landscape.

► OUR MISSION

Our mission is to deliver integrated engineering, manufacturing, fabrication, maintenance, and industrial solutions that consistently exceed international standards for quality, safety, efficiency, and performance.

We are committed to combining engineering expertise with advanced technologies to provide reliable, customized solutions that create measurable value for our clients across the oil & gas, petrochemical, power, and industrial sectors. Driven by integrity, innovation, and technical excellence, we strive to build long-term partnerships founded on trust, deliver sustainable industrial development, empower local talent, and continuously improve the way industries operate. At TalayTech, every project is more than an assignment—it is an opportunity to engineer excellence, strengthen industries, and contribute to building the infrastructure of tomorrow.

- **Heat Exchanger Manufacturing**
- **Manufacturing of Distillation Tower.**
- **Manufacturing of Air Coolers.**
- **Storage Tank Fabrication and Construction**
- **Manufacturing of Any Static Equipment related to refineries Except Steam Boiler.**

MANUFACTURING FACILITIES

TalayTech operates an integrated manufacturing system designed to support complex industrial projects while maintaining high standards of quality, precision, and operational efficiency.

► OUR MANUFACTURING CAPABILITIES INCLUDE:

- Laboratories
- Production Lines
- Manufacturing Workshops
- Quality Inspection Facilities
- Assembly and Fabrication Areas
- Testing and Calibration Facilities
- Heavy Equipment and Machinery
- Welding, Cutting, Forming, and Bending Equipment

OUR PROJECTS

TalayTech has extensive experience in delivering engineering and industrial projects across the oil and gas, energy, refinery, infrastructure, and industrial manufacturing sectors.

► OUR PROJECT PORTFOLIO INCLUDES:

- **Storage Tank Projects**

With several Types of Roof: Internal Floating Roof (IFR), External Floating Roof (EFR), Aluminum Dome Roof (ADR), Dome Roof (DR), Cone Roof (CR).

- **Pipeline Projects**
- **Refinery Projects**
- **Pressure Vessel Projects**
- **Heat Exchanger Projects**
- **Process and Distillation Tower Projects**
- **Steel Structure Projects**
- **Fuel Unit Projects**
- **Firefighting System Projects**
- **Electrical & Instruments Projects.**
- **Industrial Maintenance and Rehabilitation Projects**
- **Sandblast & Painting Service.**
- **Insulation Services.**
- **EPCC Special White Spirit & White Spirit Unit (Turnkey).**
- **EPCC Bitumen Unit (Turnkey).**
- **EPCC Solvent Unit (Turnkey).**

INTERNATIONAL ACCREDITATIONS AND GOVERNMENT LICENSES

TalayTech operates in accordance with the legal, regulatory, and technical requirements of the countries in which it conducts business.

The company is committed to obtaining and maintaining all registrations, classifications, licenses, and approvals required to undertake government, industrial, and energy-related projects.

OUR PARTNERS

TalayTech believes that strategic partnerships are essential to the successful delivery of complex industrial projects and to achieving sustainable long-term growth.

► THE COMPANY BUILDS LASTING RELATIONSHIPS WITH:

- Oil and Gas Companies
- Energy Companies
- Industrial Manufacturers
- Construction Contractors
- International Suppliers
- Engineering and Consulting Firms
- Government Authorities
- Technology and Industrial Solution Providers
- Strong Partnerships. Shared Success. Lasting Value
- Milk Factory
- Food Oil Factory
- Pepsi & Coca Cola Factories.
